1 INTRODUCTION

The Goa State Pollution Control Board has been constituted on 01/07/1988 under the Water (Prevention & Control of Pollution) Act, 1974. Prior to that the erstwhile Union Territory Goa, Daman and Diu, the Central Board for the Prevention and Control of Water Pollution was performing the functions of the State Board in Goa. The Central Pollution Control Board at Ponda – Goa established a section office for the purpose. The same arrangement was continued till constitution of the State Board. In the meanwhile, the section office of the Central Board was shifted to Baroda on 4th April 1988, to reconstitute it as a West Zonal Office. All the relevant records pertaining to Goa were transferred to the Goa State Pollution Control Board on 12th September 1998.

The Goa State Pollution Control Board after constitution established its office at Bambolim in Goa Medical College Complex. In June 1991, the Government of Goa allotted independent premises for the Board at Patto-Panaji, where the Board office was shifted in September 1991.

The Board acquired new premises on the first floor in Dempo Tower at Patto Plaza, Panaji and shifted its full setup at this new premise on 15th August 2002.

3 CONSTITUTION OF THE TECHNICAL COMMITTEE AND THE MEETINGS HELD

In order to develop uniformity in approach and to ensure timely disposal of the consent applications, a technical committee composed of technical and scientific officers of the Board was constituted vide order No. 1/7/88-PCB dated 19/07/1999. The composition of the committee is as given below:

Shri A.K. Vazirani *Member*
Member Secretary

Shri Anirudh Ram / Smt. Jenica Sequeira / Smt. Francisa Pereira *Member*
OSD Scientist 'B' Scientific Assistant.

Shri Sanjeev Joglekar / Shri Dinesh Tare *Member*
Junior Env. Engineer Junior Env. Engineer

The committee held weekly meetings for scrutiny of consent applications, both under Water (Prevention & Control of Pollution) Act, 1974 and Air (Prevention & Control of Pollution) Act, 1981. Forty-Seven meetings were held upto 31st March 2005.

The Committee examines the applications keeping in mind that the sole function of the Board is to ascertain that all industries discharging effluent or gaseous emissions, shall meet the standards prescribed and published under EP Act, 1986.

4 MEETINGS OF THE BOARD

During the year under report, 5 meetings of the Board were held as given below: -

5 ACTIVITIES OF THE BOARD INCLUDING VARIOUS FUNCTIONS PERFORMED UNDER THE ACT: -

The functions of the State Board as specified in the Water (Prevention and Control of Pollution) Act, 1974 and the Air (Prevention and Control of Pollution) Act, 1981.

Functions under the Water (Prevention and Control of Pollution) Act, 1974

- (a) To plan a comprehensive program for the prevention, control or abatement of pollution of streams and wells in the State and to secure the execution thereof.
- (b) To advise the State Government on any matter concerning the prevention, control or abatement of water pollution;
- (c) To collect and disseminate information relating to water pollution and the prevention, control or abatement thereof;
- (d) To encourage, conduct and participate in investigations and research relating to problems of water pollution and prevention, control or abatement of water pollution;
- (e) To collaborate with the Central Board in organizing the training of persons engaged or to be engaged in programs relating to prevention, control or abatement of water pollution and to organize mass education programs relating thereto;
- (f) To inspect sewage or trade effluents, works and plants for the treatment of sewage and trade effluents and to review plants, specifications or other data relating to plants set up for the treatment of water, works for the purification thereof and the system for the disposal of sewage or trade effluents or in connection with the grant of consent as required by this Act;
- (g) To lay down, modify or annual effluent standards for the sewage and trade effluents and for the quality of receiving waters (not being water in an interstate stream) resulting from the discharge of effluents and to classify waters of the State;
- (h) To evolve economical and reliable methods of treatment of sewage and trade effluents, having regard to the peculiar conditions of soils climate and water resources of different regions and more specially the prevailing flow characteristics of water in streams and wells which render it impossible to attain even the minimum degree of dilution;
- (i) To evolve methods of utilization of sewage and suitable trade effluents in agriculture;
- (j) To evolve efficient methods of disposal of sewage and trade effluents on land, as are necessary on account of the predominant conditions of scant stream flows that do not provide for major part of the year the minimum degree of dilution;
- (k) To lay down standards of treatment of sewage and trade effluents to be discharged into any particular stream taking into account the minimum fair weather dilution available in that stream and the tolerance limits of pollution permissible in the water of the stream, after the discharge of such effluents.
- (l) To make, vary or revoke any order: -
 - (i) For the prevention, control or abatement of discharge of waste into streams or wells;

- (ii) Requiring any person concerned to construct new system for the disposal of sewage and trade effluents or to modify alter or extend any such existing system or to adopt such remedial measures as are necessary to prevent, control or abate water pollution;
- (m) To lay down effluent standards to be complied with by persons while causing discharge of sewage or sullage on both and to lay down, modify or annual effluent standards for the sewage and trade effluents;
- (n) To advice the State Govt. with respect to the location of any industry the carrying on of which is likely to pollute a stream or well;
- (o) To perform such other functions as may be prescribed or may, from time to time be entrusted to it by the Central Board or the State Government.

Functions under the Air (Prevention and Control of Pollution) Act, 1981

- (a) To plan a comprehensive program for the prevention, control or abatement of air pollution and to secure the execution thereof;
- (b) To advice the State Government or any matter concerning the prevention, control, or abatement of air pollution;
- (c) To collect and disseminate information relating to air pollution;
- (d) To collaborate with the Central Board in organizing the training of persons engaged or to be engaged in programs relating to prevention, control or abatement of air pollution and to organize mass education program relating thereof;
- (e) To inspect, at all reasonable times, any control equipment, the prevention, control or abatement of air pollution in such areas; the prevention, control or abatement of air pollution in such areas; such directions to such persons as it may consider necessary to take steps for the prevention, control, or abatement of air pollution;
- (f) To inspect air pollution control areas at such intervals as it think may be necessary, assess the quality of air therein and to take steps for the prevention, control or abatement of air pollution;
- (g) To lay down, in consultation with the Central Board and having regard to the standards for the quality if air laid down by the Central Board, standards for emission of air pollutants into the atmosphere from industrial plants and automobiles or for the discharge of any other source whatsoever not being a ship or an aircraft; Provided that different standards for emission may be laid down under this clause for different industrial plants having regard to the quantity and composition of emission of air pollutants into the atmosphere from such industrial plants;
- (h) To advise the State Government with respect to the suitability of any premises or location for carrying on any industry which is likely to cause air pollution;
 - (i) To perform such other functions as may be prescribed or as may, from time to time, be entrusted to it by the Central Board or the State Government;

- (j) To do such other things and to perform such other acts as it may think necessary for the proper discharge of its functions and generally for the purpose of carrying into effect the purposes of this Act.

Note: - The Govt. of Goa vide Notification No.14-1-88-STE dated 2-1-92 has extended the air pollution control area over the whole State.

5.1 OBJECTIVES AND APPROACH

The functions listed above are directed towards the effective control of water and air pollution and thus to maintain and restore, wherever necessary the wholesomeness of water for various designated best uses and to preserve the quality of air as per requirement of ambient air quality. The Goa State Pollution Control Board aims to achieve these objectives through:

- Control on quality effluents and emissions from existing industrial units by periodical analysis of their effluent and emission samples.
- Maintain suitable industrial development by selecting non-polluting industries and the industries with effective effluent treatment arrangements.

Developing Database to prepare water use and water quality maps and air quality zoning.

5.2 SAMPLING AND ANALYSIS OF INDUSTRIAL EFFLUENTS

Goa State Pollution Control Board has established its laboratory to carry out water and wastewater analysis. During the period from April 2004 to March 2005 the Board has collected 141 no. of industrial effluent samples and analysed the same for the following parameters: pH, Biochemical Oxygen Demand, Chemical Oxygen Demand, Suspended Solids and Oil & Grease. Apart from this the Board has also collected and analysed fresh water samples from different sources such as wells, springs, streams, etc.

5.3 MINARS (Monitoring of Indian National Aquatic Resources)

Goa State Pollution Control Board has undertaken this project through Central Pollution Control Board, New Delhi.

Under this project, the Board has monitored the water quality of the following rivers. (1) Mandovi at Panaji and Tonca-Marcela, (2) Zuari at Cortalim and Panchwadi, (3) Khandepar at OPA, Ponda, (4) Madei at Dabos, Valpoi, (5) Valvanti at Sanquelim, (6) Assanora at Assanora, (7) Kalna at Chandel, Pernem, (8) Talpona at Canacona and (9) Salaulim Dam at Salaulim, Sanguem. Hundred samples from all these rivers were analyzed during the year.

The Analytical results show that all these rivers satisfy the quality requirement of the designated best uses as recommended by Central pollution Control Board. The water quality data for these rivers observed during the year have been given in the following pages.

5.4 AMBIENT AIR QUALITY MONITORING

Under the National Air Quality Monitoring Programme (NAMPP) the Board continued to monitor Ambient Air Quality at Vasco and Panaji. The Board has set up a new station at Marmugao Port Trust, Vasco on

The Ambient Air Quality samples were collected as per the standard norms for ambient air quality monitoring and normal parameters like SPM, SO₂ and NO_x were analysed.

6.0 LEGAL MATTERS

STATUS OF THE CASES FILED BY THE BOARD DURING THE YEAR 2004-2005

1. Air Appeal No. 206/2003 filed by M/s. K.G.N. Marbles V/s Goa State Pollution Control Board before the Administrative Tribunal Appellate Authority under the Air (Pollution and Control of Pollution) Act, 1981

M/s. K.G.N. Marbles is a stone cutting and polishing unit operating its activity in the shed approved by Ponda Municipal Council subject to the condition that in case of complaints from the residents the unit will have to be shifted.

On receipt of the repeated complaints from the residents, noise level was monitored and it was found that the same was above the ambient noise level of 50dB(A). Hence a show cause notice was issued on 01/07/03. The party replied to the said show cause notice and requested for oral hearing. The party was orally heard on 16/09/03.

Since the party was continuing to operate the said industrial unit without any concrete solution to control the noise pollution vide this Board's Order dated 01/10/03 direction was issued under section 31(A) of the Air (Pollution and Control of Pollution) Act, 1981 for shifting the industrial unit from the present location to any industrial estate at his own cost with immediate effect.

M/s K.G.N. Marbles filed an appeal before the Appellate Authority constituted under the Air (Pollution and Control of Pollution) Act, 1981 challenging the order passed by the Board for shifting the unit to any industrial estate. In the said appeal he also prayed for interim relief of staying the said direction. The Hon'ble President upon hearing the parties granted stay of the order passed by the Board and directed the Board to file its reply. The Board filed its reply.

At present the appeal is pending for arguments and final disposal.

2. Air appeal No. 145/2004 filed by M/s Maa Durga Enterprises Pvt. Ltd V/s Goa State Pollution Control Board before the Administrative Tribunal Appellate Authority under the Air (Pollution and Control of Pollution) Act, 1981

M/s Maa Durga Enterprises Pvt. Ltd had taken over the unit of M/s Tirupati Steel Pvt. Ltd. and re-erected the air pollution control measures and installed new furnaces without obtaining prior consent to establish of the Board as required under section 21 of the Air Act, and directly applied for Consent to operate. As such the Board refused to grant consent vide its order dated 15/07/04 and directed to re-submit its application after complying the various details about the unit.

M/s Maa Durga Enterprises Pvt. Ltd filed an appeal before the Appellate Authority constituted under the Air (Pollution and Control of Pollution) Act, 1981 challenging the order passed by the Board for refusing to grant consent to operate to the unit.

The Board Advocate filed the reply and also argued the matter before the Appellate Authority. Presently the appeal is pending before the tribunal for orders which is fixed on 22/07/05.
