Member Secretary, GSPCB: ms-gspcb.goa@nic.in
Office: mail.gspcb@gov.in

Order No.: 3/71/25-PCB/Tech/11 210

Date : 1/09/2025

CIRCULAR

Ref: circular no.3/71/23-PCB/lab/3884 dated 23/05/2024

Earlier proposal was placed in the 156th Board meeting with regards to the installation and connectivity of online effluent monitoring system and connecting the same to board office for Industries/Residential complex etc. It was proposed and approved for installation of online effluent monitoring system for the sewage treatment plant (STP) above 100KLD capacity and Effluent treatment plant (ETP) above 50KLD capacity in order to strengthen the monitoring mechanism.

Accordingly the Board had issued a circular dated 23/05/2024 directing the industries to install online effluent quality monitoring system for STP above 100KLD and ETP above 50KLD.

However the board was in receipt of representation from the unit requesting to exempt smaller units from installation of the online effluent monitoring system. Accordingly the matter was placed in 162nd Board meeting on 21/05/2025 and the matter was discussed and deliberated. After deliberation the board decided to adhere to the guidelines issued by Central Pollution Control Board (CPCB) with regards to the installation of the online effluent monitoring system and exempt installation of online effluent monitoring system for the sewage treatment plant (STP) above 100KLD capacity and Effluent treatment plant (ETP) above 50KLD capacity.

In view of the above installation of online effluent monitoring system for the sewage treatment plant (STP) above 100KLD capacity and Effluent treatment plant (ETP) above 50KLD capacity is exempted. All other conditions as specified in circular No. 3/71/23-PCB/LAB/3884 dated 23/05/2024, remain unchanged.
